

Cotton Waste

- **Traditional filling for French polishing rubbers**
- **Made from pure cotton strands**
- **Allows the French polish to flow evenly from the rubber**
- **Easy to shape and mould to size**

Product use

Liberon Cotton Waste is made from pure cotton strands that are used as wadding inside French polishing rubbers. For use with Liberon Cotton Rags to make French polishing rubbers that are easy to shape and that allow the French polish to flow evenly.

Application

To make a French polish rubber take a fist size amount of cotton waste, place in the centre of a cotton cloth (approximately 30 cm² in size), pull the corners together and twist to a ball shaped pad.

Packaging

250 g, 1 Kg
