

SAFETY DATA SHEET

1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND THE COMPANY

PRODUCT NAME Wudcare Mitre Fix Activator
PART NUMBER M50 (200ml activator)
SUPPLIER Care Products & Services Ltd
61 Mill Street
Cannock
Staffs
WS11 0DR
TELEPHONE 01543 573374
EMERGENCY pm 01543 278105
FAX 01543 579435

2. COMPOSITION/INFORMATION ON INGREDIENTS

INGREDIENTS	% by WEIGHT	CAS No	HAZARD SYMBOL	'R' PHRASES
Aliphatic Hydrocarbon	<95	64742-89-8	F	R11
Carbon Dioxide	<5	124-38-9		

3. HAZARDS IDENTIFICATION

Highly Flammable

Keep container in a well-ventilated place. Keep away from sources of ignition – No smoking. Do not empty into drains. Take precautionary measures against static discharges. Do not puncture or incinerate can. The normal precautions for the handling of chemicals must be observed.

4. FIRST AID MEASURES

Ingestion: DO NOT induce vomiting. If patient vomits turn to recovery position. Get medical aid; watch breathing and for dizziness, nausea, headaches and vomiting.

Inhalation: Remove patient to fresh air, if recovery is not immediate, seek medical help. In cases of irritation to the lungs, initial treatment with Dexametason metered aerosol

Skin contact: Wash off immediately with copious amounts of clean water.

Eye contact: Wash immediately with copious amounts of clean water, if irritation persists seek medical help.

5. FIRE FIGHTING MEASURES

- Small fires: Water spray, CO₂, Foam, Dry Powder.
- Large fires: Use foam or water fog. Keep containers cool by spraying with water.

6. ACCIDENTAL RELEASE MEASURES

- Personal protection: Shut off source of release (if safe). Contact with eyes, skin and inhalation of vapours to be strictly avoided. Wear mask/respiratory equipment, gloves/goggles and complete impervious clothing.
- Environmental precautions: Do not allow entry into sewers or natural environments.
- Method of cleaning up: Evacuate the area. Absorb with sand, earth, sawdust etc. and remove mechanically. Allow adhesive to cure and remove mechanically.

7. HANDLING AND STORAGE

- Storage: Product is a very volatile/extremely flammable liquid. Keep away from sources of ignition such as heat, sparks and open flames. Keep containers in a cool, well-ventilated area.
- Handling: Ensure good ventilation. For larger concentrations use self contained breathing apparatus and full protective clothing, gloves and eye protection.

8. EXPOSURE CONTROL AND PERSONAL PROTECTION

- Ventilation: Good ventilation is required. Suction exhaust of vapours at source is recommended to keep concentrations below the EOS.
- Respiratory protection: In emergencies/confined spaces/high concentrations, use self-container breathing apparatus. Do not use masks/respiratory equipment in confined areas due to lack of oxygen.
- Eye protection: Safety glasses or goggles are recommended.
- Hand protection: Impervious gloves are recommended.
- Skin protection: Overalls are recommended when large quantities of product are involved.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance:	Liquid
Colour:	Clear/colourless
Viscosity:	Approximately 0.59 cSt @ 20°C
Boiling point:	88°C @ 1013 mBar
Flash point:	0°C
Ignition temperature:	>200°C
Explosive limits:	Lower 0.6%
Thermal decomposition:	None if used correctly

10. STABILITY AND REACTIVITY

Avoid heat, sparks, flames and other sources of ignition, moisture. Avoid strong Oxidizing agents. Avoid storage in open containers.

11. TOXICOLOGICAL INFORMATION

Effect of eye contact:	Irritating but does not injure eye tissue
Effect on skin contact:	Prolonged contact may irritate, cause dermatitis. Low order of toxicity
Effect of inhalation:	High vapour concentration is irritating to eye and respiratory tract. May cause headaches, dizziness
Effect of ingestion:	LD50 Oral (rats) > 5.0g/kg

12. ECOLOGICAL INFORMATION

Persistence and degradability:	Readily eliminated by biological degradation
Other Information:	Should not be admitted into watercourse without pre-treatment. If admitted into adapted biological water treatment plants with the appropriate care, no adverse effects from the degrading activity of the live sludge are expected.

13. DISPOSAL CONSIDERATION

In accordance with the Local Authority, the hazard label should be removed from the empty/dry container before disposal.

14. TRANSPORT INFORMATION

UN number:	1950
Primary hazard:	Flammable liquid
Packing Group:	II
HI Number:	33
Class/Item number:	3
Emergency action code:	2[S]E

15. REGULATORY INFORMATION

Symbols:	Highly flammable F
Risk Phrases:	11 Highly flammable
Safety Phrases:	9, 16, 23, 29, 33 NO SMOKING
Other suggested Phrases:	Keep away from children. Do not puncture or incinerate can.

16. OTHER INFORMATION

The normal handling and safety precautions for the use of chemicals must be observed

Disclaimer

The information contained within this MSDS applies only to the Wudcare product to which the sheet relates. The information provided is based on our best knowledge at the time of issue.

The information contained within the MSDS is believed to be accurate and is given in good faith. However, no warranty is made, either express or implied, regarding its accuracy or any liability arising out of the use of the information herein or the products supplied.

When used in other preparations, formulations, or in mixtures, it is necessary to ascertain whether the classifications of the hazards have changed. The attention of the user is drawn to the possibility of creating other hazards when the product is used for purposes other than that for which it was recommended. In such cases a reassessment may be necessary and should be made by the user.

This safety data sheet should only be used and reproduced in order that the necessary measures are taken relating to the protection of health and safety at work.

It is the responsibility of the handlers to pass on the totality of the information contained within this document to any subsequent person(s) who will come in contact with, handle or use this product in any way.

They should check the adequacy of the information provided within MSDS before passing it on to their customers/staff.
